RADIO JAVAN PARTY

The app, in a room.

Radio Javan has been the Persian-speaking world's music app since 2004. Radio Javan Party is where that audience meets in person: Persian pop and dance, DJ-led, in the cities where the community lives. The DJs are the same residents whose mix shows live in the app — the room has already heard the set in its pocket before it walks in.

It runs as a network — Toronto, Montreal, Vancouver, Calgary, Washington DC, New York, Houston, Los Angeles, London and more — from ordinary Saturday nights to Norooz, the season the whole year turns on. Students to families, all in one room, and every room is full of the business owners who advertise on RJ.

RADIO JAVAN PARTY · YOUR NAME ON THE MAIN SCREEN (HALAVI IMMIGRATION, A PAST SPONSOR)

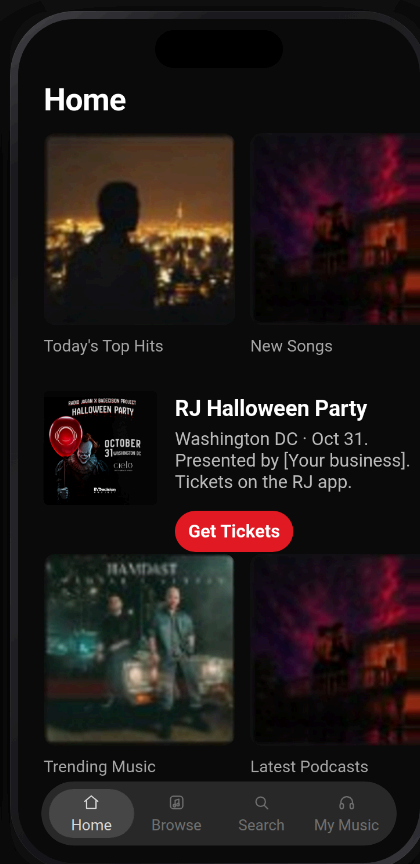

Two weeks before the night, your name is already in their pocket.

Every Radio Javan Party is promoted inside the RJ app to listeners in that city. Presenting Partners ride on that promotion – in the audio ad, the Full Screen ad and the Home Feed card.

WHY THE TIMING WORKS

The room walks in already having heard your name for two weeks. On the night, they see it again. Repetition in a place they love is what makes a brand feel local.
